The History of Technical and Vocational Training in Iran

- before 1960, trainings were presented based on the master-student system without any established framework.
- In 1960, the enactment of the law of Apprenticeship and the establishment of the education unit in the general labour administration.
- from 1960 to 1962, the professional trainings of workers
- From 1962 to 1965, the general education administration (educational standards office, the training of head workmen, educational requirements office), the technical center of Karaj and the center of the east of Tehran
- From 1965 to 1966, the general education administration (the skill development office, the apprenticeship office) , the establishment of the first teacher and head workmen training center in the south of Tehran
- From 1966 to 1969, the general education administration (technical examinations office, the occupations control and supervision office) under the supervision of human force office
- From 1969 to 1980, the establishment of apprenticeship cash office
- From 1989 to 1981, the establishment of the technical and human force training organization by merging the general vocational trainings of the ministry of labour and the apprenticeship cash office and the apprenticeship center of the country after the approval of the cultural revolution council
